BUNNOCK™ A FUN GAME FOR THE WHOLE FAMILY

A bone toss game (using the ankle bone of a horse). The game involves two parallel rows of twenty two Bunnock bones set up 10 metres apart. Teams of one to four competitors take turns throwing two bones each back and forth at their competitors row of Bunnock. They attempt to knock down the two outer guards, then the twenty middle soldiers. The first teams to knock down all of their competitors Bunnock with the least number of throws wins the game. This game is for every level of fitness and desire, and can be enjoyed by young and old alike. For more details goto www.bunnock.com
